

SNIPER PROVIEW

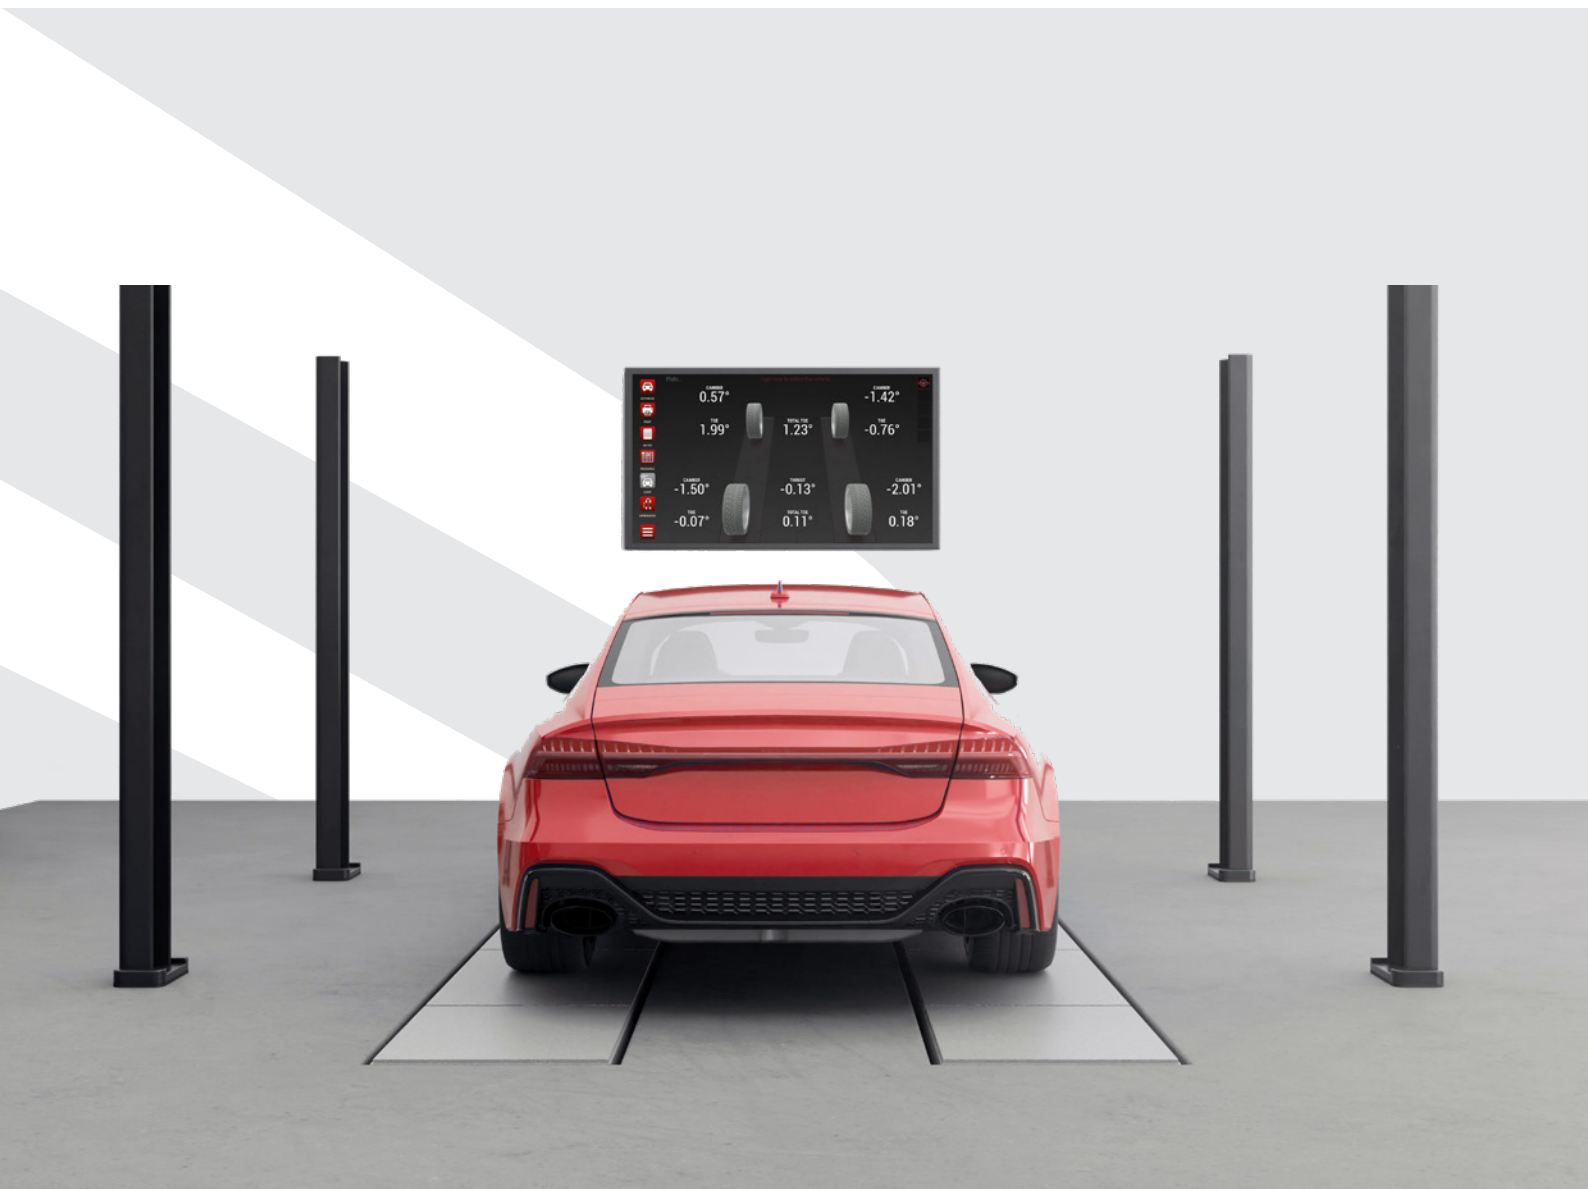

CLAMPLESS
WHEEL ALIGNMENT

SNIPER PROVIEW

SNIPER PROVIEW is the first fully clampless M&B Wheel Alignment System, redefining wheel alignment diagnostics with:

- ✓ Faster operations
- ✓ Superior safety
- ✓ Unmatched productivity

HEADLINE BENEFITS

Performance & Speed	Efficiency	Business & Customer Experience
<ul style="list-style-type: none">• Smart vehicle pre-selection• No run-out compensation• 5-second toe and camber measurement• Immediate caster with auto-unlocking turntables	<ul style="list-style-type: none">• No clamps, targets or sensors• Self-calibrating cameras• No brake pedal lock needed• No mechanical moving parts: higher reliability	<ul style="list-style-type: none">• Quick wheel alignment check• Instant and user-friendly reports• Trusted diagnostics → more service revenue• Zero rim contact → higher customer satisfaction

WORKFLOW STEPS

1. Guided Vehicle Positioning

On screen guidance helps you position the vehicle accurately. The intuitive interface makes setup fast and consistent for any technician.

2. Clampless Alignment Check

The system performs a complete alignment check without clamps or targets, saving time and eliminating the risk of rim damage.

3. 5-Second Toe & Camber

Toe and camber are measured in just 5 seconds with no run out compensation.

4. Smart Vehicle Pre-Selection

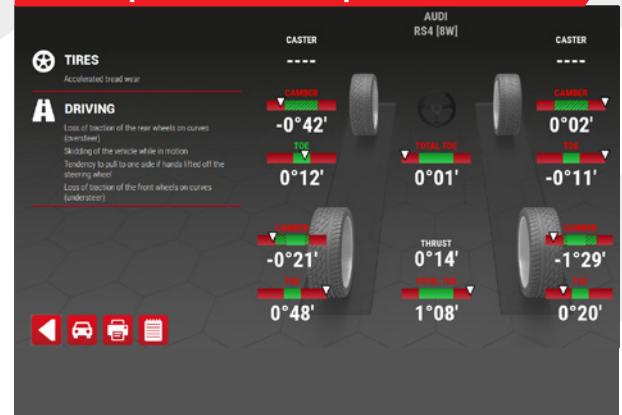

Automatic detection filters the model list based on vehicle dimensions, speeding up the selection of technical specifications.

5. Quick Caster Measurement

Caster measurement is streamlined, powered by optional auto unlocking turntables.

6. Comprehensive Report

A professional report highlights drivability issues caused by misalignment and details the required adjustments: an effective tool to convert checks into approved alignment work.

AVAILABLE CONFIGURATIONS:

FULL

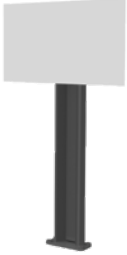

Ground-level acceptance check followed by adjustment on a fixed-height lift

PIT

Ground-level acceptance check followed by adjustment in pit

OPTIONS

				
Monitor wall mounting kit	Monitor support column	Two turntables with automatic lock/unlock	External premium licence plate recognition camera	Premium camera support column
